Subject Index

Alkaline phosphatase 287
Aortic calcification 185
APD 175
Architecture 45
Atherosclerosis 185

Biochemical marker 273
Biomechanics 257
Bisphosphonates 21
Body weight 85
Bone density 145
Bone disease 245
Bone formation 1, 21, 225
Bone mass 257
Bone mineral density 85, 273
Bone mineralization 127
Bone modeling 257
Bone nodules 103
Bone remodeling 45, 257
Bone resorption 117

Calcification 31, 235
Calciotropic hormones 245
Calcitonin 103
Calcium and magnesium metabolism 75
Calcium channel 31
Calcium intake 85
Calcium transport 31
Calibration 145
Cancellous bone 45
Canine distemper virus 159
Chemotaxis 63
Chick embryo 1
Children 85
Computed tomography 145

Dentin 31
Dentinogenesis 31
Deoxypyridinoline 117
Differentiation of osteoclasts 215
Duodenum 201

Endoprostheses 257
Estrogen 21, 225
Ethanol 75

Gastric antrectomy 245
Gastrin 245

Healing 257
Heterotopically induced osteogenesis 127
Human bone 287
Hyperparathyroidism 185
Hyperphosphatasia 175
Hypertrophic chondrocyte 1
Hyp mouse 201

Immunolocalization 287
Insulin-like growth factor-I 235
Intestinal mineral absorption 245
Intracellular calcium 103

Juvenile Paget's disease 175

Matrix vesicles 287
Membrane potential 103
Menopause 273
Mineral balance 245
Mineralization 287

Odontoblast 31
Oophorectomy 273
Osteoblast 21, 225, 235
Osteoblasts 287
Osteopenia 257
Osteoporosis 145, 185, 273
Ovariectomy 45

Paget's disease 159
Pamidronate 175
Parathyroid hormone 75, 103, 117
Paramyxoviruses 159
Platelet-derived growth factor 63

Prevention 45
Progesterone 225
Prostaglandin E_2 45
Protein kinase C 235
Puberty 85
Pyridinoline 117

Rat 21, 117
Rats 31
Recombinant LD78 215

Serum calcium homeostasis 245
Small inducible protein family 215
Sports medicine 257

Trans-differentiation 1
Transforming growth factor β 63
Transitional epithelium 127

Vertebral fracture 185
Vitamin D deficiency 127
Vitamin D hormone 201
Vitamin D receptor autoregulation 201

Wolff's Law 257

X-linked hypophosphatemic rickets 201
